

Projet SE WADEDJI BOGAN : Savalou désormais mieux informé sur la vaccination

In response to vaccine hesitancy and misinformation in Benin, particularly in Savalou, the NGO Save Our Planet launched the SE WADEDJI BOGAN project on November 18, 2023. The initiative, which includes public information sessions and debunking COVID-19 rumors, aims to promote the importance of vaccinations. The project receives support from Unicef Benin and the French Embassy in Benin.
